Hi Gals,

I looked at the Beach Chair job description and for the most part it looks accurate, however it's been a relatively inactive position in the last year or so!!!! The fall cleanup this year went incredibly well and kind of re-energized me for next year. Craig Cox (the neighbor) is going to be paying for and plant a few more ornamental grasses next spring to fill in where grasses were lost in previous storms. Between him and the Village, the beach was kept up really well and used more then ever this past summer (might be because of Covid and families wanting to do something outside). Anyway, my thought for next year is to just have a few volunteer dates (maybe once a month) to weed around obstacles that they can't get close to with the equipment and keep the weeds pulled between the grasses. We had 8 volunteers and it took us 1 ½ hours. My guess is it might just take an hour if we do it once a month.

P.S. I'm not sure Donna will get this. Every time I send her an email it gets sent back to me as undeliverable.

Jody
